FYI, more comments on R2c. I think the only people who have not commented are Mike and Bob. Not sure what to expect or when from them.

Subject: RE: review strategy

I've corrected some typos / minor grammatical issues in track changes (red font), so those should be obvious. Also made comments on the following pages: 19, 29, 30, 40, 53, 58, 60, 61, 69, 70, 71, 72, 131. I don't see any of these comments / suggestions as game changers, just hopefully improve the accuracy / clarity of the document.

Please let me know if any of these comments require further explanation.

Chris

Bob,

I have seen portions of this before, but not recently. I'll look through the document this weekend and highlight anything I think needs attention.

Subject: review strategy

We have a lot to review over the weekend it appears.

For this document, Anne, how about you start reviewing comments around page 60-65 and work to the end? As time permits, go back to page 1 and review.

I will review pages 1-60-65. As time permits, I will review 65-130.

Adam – try to review as much as you can. It will be important to go look at the risk assessment sections once we get those to see if the response there comports.

Chris –have you seen these comments and responses? What are your thoughts? Any areas of vulnerability? If so, what? If you can review too, that would help. I suspect you helped on some subset of these.

Thoughts?

Thanks

Subject: Draft Oxitec r2c

Mike, Bob, and Anne,

Attached is a response to comment document which incorporates edits in response to OGC's initial comments. Please provide any comments and edits by noon on Monday April 27th. There are still some minor formatting issues that we will work to fix tomorrow before the package goes to Rick.

Thanks.
